

**CUT GUN
DEATHS & INJURIES
IN HALF BY 2025**

Prevent Gun Violence

Use the Public Health Approach & Evidence-Based Strategies

Self-study course with 14 Cat I CECHs for CHES/MCHES (includes 6.0 Advanced*). Additional 2.5 FREE from CDC continuing education hours are available.

<p>General Information</p>	<p>Course Developer: Jim Grizzell, MBA, MA, MCHES, ACSM-EP-C, FACHA Email: jimgrizzell@healthedpartners.org Phone: 909-856-3350 (cell, please call between 9 am - 8 pm PT) Course Materials: All materials are available online. Suggestion: keep this Study Guide opened on a computer to click on and open assignments in your browser. Best to use </p>
<p>Course Description</p>	<p>This is a learning experience that will help the participant gain knowledge and competencies to reduce gun violence as a health problem (~33,700 deaths/year, 10.6/100,000, ~35% homicide, ~61% suicide^{1, 2} (similar to vehicle traffic deaths), over 465,000 nonfatal firearm victims (23% injured)^{3, 4}). The Public Health Approach, and evidence-based strategies and decision making are studied. The history and interpretations of the 2nd Amendment and Supreme Court decisions are studied to learn how laws can be permissible. Pro-prevention and gun lobby groups are reviewed.</p> 
<p>Course Goals and Objectives</p>	<p>The goal is to help health professionals and partners provide expert assistance applying the Public Health Approach with evidence-based, sound theoretically-based, legal (Constitutional) and ethical strategies to reduce gun violence.</p>
<p>Course Requirements</p>	<p><u>Study Materials:</u> Web sites and files available online <u>16 Question Assessment</u> (passing is ≥70%, 35 to 50 points) <u>Course Evaluation</u> (included at the end of the assessment)</p>
<p>The entire course will be done electronically using the web, electronic files and email. Here are links to course’s syllabus and test. Best opened with Adobe Reader  www.healthedpartners.org/ceu/pgv/pgvstudyguide.pdf 16-question TF, multiple choice and text response post-course assessment (required) www.healthedpartners.org/ceu/pgv/pgvtest.pdf Best completed with Adobe Reader </p>	
<p>Completion Certificate</p>	<p>Certificate for 14 Category 1 CECHs for CHES/MCHES (includes 6.0 advanced for MCHES) will be awarded with score of ≥70% and course evaluation is completed. Payment of fee is required.</p>

Introduction

This course will help health professionals provide expert assistance to apply the Public Health Approach (PHA) and use evidence-based and evidence-informed strategies to reduce gun violence. Gun violence includes murder/homicide, assault, injury, robbery, assault, domestic violence, suicide, unintentional and accidental shooting.

Public Health Approach - Many professional health organizations urge using PHA. The course follows an outline of the PHA key components to: 1) define and monitor the problem, 2) identify risk and protective factors, 3) develop and test prevention strategies, and 4) assure adoption.

Evidence-Based Strategies - There may be well over 250 evidence-based (EB) and evidence-informed (effective and promising) strategies for health professionals to use or adapt. Being able to find ones for your interests is covered in this course. CDC has two excellent online courses specifically related to violence prevention. You will take the **“Principles of Prevention”** and the **“Evidence Based Decision Making”** courses.

2nd Amendment and US Constitution - Concern for the “right to bear arms,” “gun rights” and fear that “gun laws” might lead to confiscation permissible laws are covered thoroughly. The **2nd Amendment and Supreme Court** decisions give guidelines for laws that are is permissible. How background checks are done is covered in the course. Knowing the history and interpretation of the 2nd Amendment and Supreme decisions may help you understand and work with potential opponents.

Potential partners and stakeholders, allies and opponents are studied.

Some required reading and a lot self-selected reading. It may appear that there is a too much to study but remember you get to review each section and, in most of them, select items you find most interesting and may be useful in your work. The test (link on first page) has True/False, multiple choice questions and asks for very brief descriptions of what you selected to study and how you might use the information.

Section	Page
1. The Public Health Approach (~1 hour)	3
2. Principles of Prevention (from CDC’s Division of Violence Prevention, ~ 2 hours)	5
3. Evidence Based Decision Making (from CDC’s Division of Violence Prevention, ~2 hours)	7
4. Define and Monitor the Health Problem of Gun Violence (~1 hour)	9
5. Risk and Protective Factors that Promote and Prevent Gun Violence (~1 hour)	12
6. The 2nd Amendment – History, Interpretations, Gun Laws can be Constitutional (~1 hour)	16
7. Implemented Strategies: President Executive Order, Congressional & State Legislation (~1.5 hours)	17
8. Public Health and Other Organization Promoted Prevention Strategies (~1.5 hour)	19
9. Health Education Strategies (~1 hour).....	21
10. Potential Collaborative Relationships for Widespread Adoption (Allies and Opposition) (~1 hours) ..	23
Test Instructions and Test (0.5 hour)	25
About the Course Developer - Jim Grizzell.....	25

Ways to Find the Study Assignments and Time Estimates, and Take the Test

1. Keep this Study Guide opened on your computer to be able to click on the links in the Study Guide.
2. Follow instructions on a printed copy to get to assignments.

Time to complete the course includes two components: 1) Estimated time to read text based on reading speeds of 250 words per minute (wpm) to faster speed at 300 wpm and 2) An additional 10% to 20% of time is allowed for skill development learning to navigate to and open web pages.

Taking the test: be sure to open the test with Adobe Reader DC (DC is most recent version and free).

NOTE for Mac users: be sure to switch from Mac’s “Preview” program to **“Open with:”** Adobe Reader.

Estimated Time	Sections, Objectives and Assignments
~0.5 hour	<p>Introduction</p> <ul style="list-style-type: none"> • Thoroughly Review and prepare to use this Study Guide. Remember to look for the instructions for required reading, and other reading/studying to tailor the course for your needs, interests, and your work. (~30 min)
<p>~1.0 hours</p> <p>Objectives match the NCHEC responsibilities and competencies for CHES and MCHES.</p> <p>Read / study all materials in this section.</p>	<p>Section 1: Prevent Gun Violence with the Public Health Approach</p> <p>After studying the materials the participant will be able to:</p> <ul style="list-style-type: none"> • Apply theories and models to develop assessment strategies, critique sources of health information, and identify gaps in data using theory and evidence from the literature (1.1.3, 1.2.2, 1.2.4, 4.1.7, 4.1.10) • Select planning models for health education (2.2.3) • Design and apply theory-based strategies and interventions to achieve objectives (2.3.1, 3.1.6) • Use learning theory to develop or adapt training programs (6.2.6) <p>Study Assignment</p> <ul style="list-style-type: none"> • Read/study the CDC, IOM, APA and JAMA web pages and articles describing PHA. 20 Second Video with Vivek Murthy, U.S. Surgeon General
<https://youtu.be/UTRIJzGXR78>

2.0 hours

Section 2: Principles of Prevention

After studying the materials the participant will be able to:

You can get an additional free 1.5 continuing education hours from CDC for completing this section.

See instructions at the end of this section and at the POP web site.

NOTE: four test questions for this self-study course are the same as those used in the CDC “Principles of Prevention” and Understanding Evidence courses.

Consider taking notes. The CDC test questions do make us think and apply what is taught.

- Select planning models for health education (2.2.3)
- Design theory-based strategies and interventions to achieve objectives (2.3.1)
- Apply theories and models of implementation (3.1.6)
- Use evidence-based research to develop policies to promote health (7.5.4)

Study Assignment

- Complete the CDC “Principles of Prevention” (POP) course. At the beginning of the POP course you can choose to take the course for 1.0 CECH free continuing education hours for CHES/MCHES. The 1.0 CECH is separate from this self-course. Register through CDC - Instructions are start on page 26 of this Study Guide.

- **CDC Injury Prevention & Control: Division of Violence Prevention**
 - **Principles of Prevention Introduction video (~2 min),**

- <http://vetoviolence.cdc.gov/apps/principles-of-prevention/> (scroll down a few inches, click “Get Started.” – Look for “**Accreditation Information**” dialogue box for CDC course WB 4137 for free 1.0 CECH. Click on “Start Training.”)

- **Principles of Prevention (POP) Continuing Education Course**
 - <https://vetoviolence.cdc.gov/apps/principles-of-prevention/training/module-1principles-of-prevention> (~90 min)

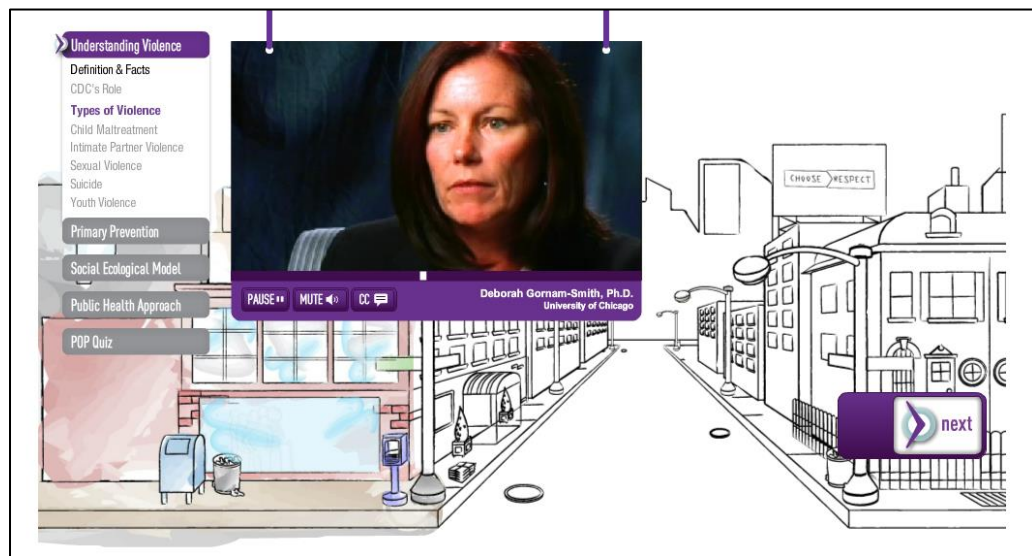

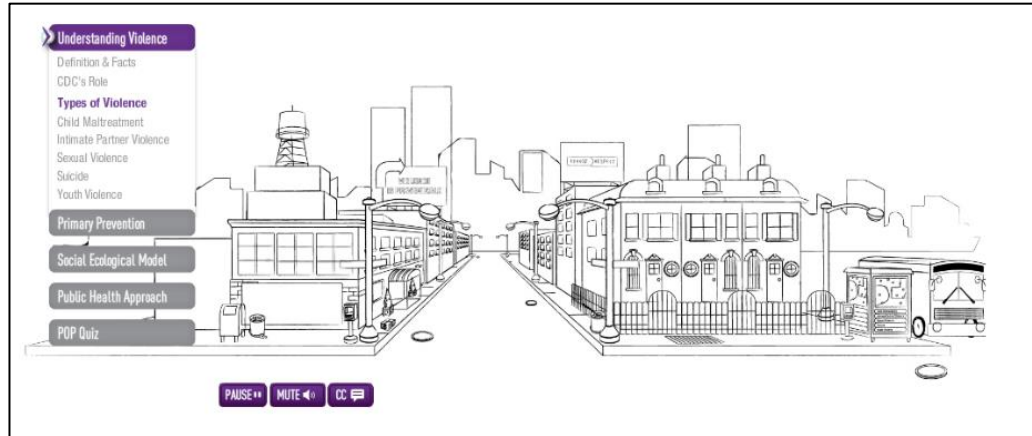

- At the end of POP, you will be able to:
 - Define violence
 - Describe the burden of violence in the United States
 - Distinguish primary Prevention from secondary and tertiary prevention
 - Identify the 4 levels of the Social Ecological Model
 - Describe the public health approach to violence prevention

- Follow the instructions on the “WELCOME TO” and to “Launch” the course.
- You may find that you cannot go back to previous videos or small segments but can click on major sections. It does take about 90 minutes to go through the entire course and take the quizzes.

. . . . continue to page 6.

- Clicking on **Exploring Only** takes you directly to the LAUNCH TRAINING page.
- Here are views from the first module videos. The picture of the neighborhood is drawn during the video and 1- to 2-minutes videos drop down.
 - You may need to be a little patient as each video segment loads.

- The last module of the course features the opportunity to test your understanding of these concepts in a fun, "POP Quiz."

. . . . Section 3: Evidence and Decision Making starts on next page

2 hours

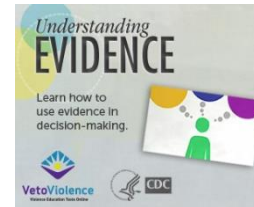

You can get an additional free 1.0 continuing education hour from CDC for completing this section.

To get this free continuing education hour you must complete all the lesson modules.

See #12 of FREQUENTLY ASKED QUESTIONS (FAQS) and/or instructions at the DISCOVER MORE sections after completing the course.

Section 3: Evidence and Decision Making to Prevent Gun Violence

Increasing emphasis has been placed on the importance of evidence in guiding violence prevention efforts. Evidence is extremely important for researchers, health education specialists, practitioners, and policy makers charged with making decisions around funding and implementing violence prevention strategies.

After studying the materials the participant will be able to:

- Critique sources of health information using theory and evidence (1.2.2)
- Assess the quality and efficacy of interventions, policies and strategies to ensure consistency with objectives (1.6.2, 2.3.1)
- Develop evaluation/research questions (4.1.1, 4.1.2)
- Assess the merits and limitations of qualitative and quantitative data collection for research (4.1.6)
- Collect, analyze and interpret evaluation and research (4.3, 4.4)
- Analyze factors that influence and advocate initiatives to decision-makers (7.1.4, 7.4.9, 7.4.10)
- Use evidence-based research to develop policies to promote health (7.5.4)

• CDC Injury Prevention & Control: Division of Violence Prevention

• Using Different Types of Evidence in Decision Making

- www.cdc.gov/features/UnderstandingEvidence/index.html (~10 min, ~500 words)

NOTE: page has an incorrect link from text “Then the *Understanding Evidence* . . .” Do not click on it: use <https://vetoviolence.cdc.gov/understanding-evidence>

• Understanding Evidence – a part of CDC’s **VetoViolence™**

- <http://vetoviolence.cdc.gov/understanding-evidence>

• This site will help you use evidence based decision making as you think about ways to prevent gun violence in your community. Read the page, watch the Homepage video, and complete the entire learning module.

• There is a flow – learn about each type of evidence (Best available research, experiential, contextual) and be sure to be patient – the short videos may take a few more seconds than expected to load and start.

- **NOTE:** You can use the site setup a profile as a guest or by creating an account from the **LOG IN** button. If you do make an account you can get the “Continuum of Evidence of Effectiveness” for a strategy (a strategy map for “permit to purchase” policy is available at the end of this section – it has the white boxes showing how effective your proposed strategy might be).

• **Follow the instructions below and on the web site** to get start. Once you finish Part 1 you should be able to go through CDC’s learning module fairly smoothly.

- Click on **GET STARTED ▶** and read the instructions.
- Go through the INTRODUCTION – Introduction to EVIDENCE BASED DECISION-MAKING

- Click on video button  and read the ACCREDITATION page instructions then click on “Begin Course” at the bottom of the box.
- Listen to the 1-min video and read the KNOWLEDGE CHECK box that comes up after the video. Click on NEXT. NOTE: if you are currently work in violence prevention use Understanding Evidence for practice or use a hypothetical to complete the form.
- Following steps to PART 2 and complete the KNOWLEDGE CHECK box. Remember your answers since these are part of the final web site test to complete the course.
- Upon completion you will be at a page with a congratulations video.
- All the questions and answers, and **Final Strategy Map** for a proposed Federal “permit-to-purchase” law based on the questions and answers for the **CONTINUUM of EVIDENCE OF EFFECTIVENESS** is available at:
 - www.healthedpartners.org/ceu/pgv/permittopurchasestrategymap.pdf
 - It has the questions, answers, final map and references (~15 min, 1,500 words, 2 graphics, 7 pages)

Final Strategy Map for H.R. _____. Handgun Purchasers Licensing Act
(permit-to-purchase law)

	Well Supported	Supported	Promising Direction / Emerging / Undetermined More Research Needed			Unsupported	Harmful
Effect	Found to be effective		Some evidence of effectiveness	Expected preventive effect	Effect is undetermined	Ineffective	Practice constitutes risk of harm
Internal validity	True experimental design	Quasi-experimental design	Non-experimental design	Sound theory only	No research No sound theory	True or quasi-experimental design	Any design with results indicating negative effect
Type of evidence/research design	Randomized control trials and meta-analysis / systematic review	Quasi-experimental design	Single group design	Exploratory study	Anecdotal / Needs assessment	Randomized control trials or quasi-experimental design	Any design with results indicating negative effect
Independent replication	Program replication with evaluation replication		Program replication without evaluation replication	Partial program replication without evaluation replication		Program replication with evaluation replication	Possible program replication with / evaluation replication
Implementation guidance	Comprehensive		Partial	None		Comprehensive	Comprehensive / partial
External and ecological validity	Applied studies - different settings (2+)	Applied studies - similar settings (2+)	Real-world informed	Somewhat real-world informed	Not real-world informed	Applied studies- same / different settings	Possible applied studies - similar / different settings

... Section 4: Define Firearms Violence as a Health Problem starts on next page.

1.0 hour

Section 4: Define Firearms Violence as a Health Problem

After studying the materials the participant will be able to:

- Access, collect quantitative and qualitative baseline, identify gaps information and data related to gun violence (1.2, 1.2.4, 1.3, 3.1.2)
- Assess merits and limitations, analyze data, and synthesize data for reporting and support advocacy messages (4.1.7, 4.3, 5.2.4, 7.4.5)
- Use evaluation and research finding in policy analysis (7.5.1)
- Use evidence-based research to develop policies to promote health and prevent gun violence (7.5.4)

Study Assignment

- Take about **one (1) hour** studying and reviewing some of the data sources and data available that are of interest to you and which you might use in your work. In that hour try to review several data sources (BOJ, CDC, FBI, NIJ, Healthy People 2020, etc.) for gun violence reports and data. Reports you can select from include those on mortality, homicide, suicide, robbery, assaults and injury. For the test be prepared to very briefly (<= 50 words) describe what you learned and might use. (~1 hour)

1.0 hour

Section 5: Risk and Protective Factors

After studying the materials the participant will be able to:

- Examine relationships among behavioral, environmental factors that promote or prevent firearm violence and safety (1.4)
- Examine factors that enhance or compromise the health education process (1.6)
- Assess social, environmental and political conditions that may impact health education (1.6.4)
- Assess the need for resources to foster health education (1.6.6)

Study Assignment

- Spend an hour reading/studying the topics of interest to you. Consider how they may relate to the four levels of the Social-Ecological Model taught in the Principles of Prevention. Be prepared to write very brief (<= 50 words) description of what you learned and how the factors reviewed may be a risk and or protective factors. (~1.0 hour)

- <http://faculty.knox.edu/fmcandre/guns-testo-aggress.pdf>

~1.0 hours

Section 6: The 2nd Amendment – Gun Laws can be Constitutional

After studying the materials the participant will be able to:

- Employ ethical standards when collecting, using and analyzing data, evaluating research (1.3.7, 4.1.14)
- Advocate for, comply and monitor compliance with legal and ethical principles in designing strategies, interventions and policies (2.3.4, 3.2.5, 7.5.3)
- Adhere to ethical standards, model professional behavior (5.3.6, 5.4.8)
- Provide expert assistance on interpretations of the 2nd Amendment (6.3.5)
- Apply ethical principles in consultative relationships (6.3.8)

Study Assignments

- Read/study each article.
- **Background and text of the 2nd Amendment** – read text of web pages about the “Bill of Rights” which includes the 2nd Amendment. It is not necessary for this course to click on links and read text from those links.
 - www.archives.gov/exhibits/charters/bill_of_rights.html (~5 min, ~400 words)
 - Read the transcript (click on the “read transcript >” button or this link: www.archives.gov/exhibits/charters/bill_of_rights_transcript.html (~10 min, ~1,800 words)
- **Library of Congress – United State: Gun Ownership and the Supreme Court - Overview**
 - www.loc.gov/law/help/usconlaw/second-amendment.php (~10 min)
- **American Bar Association (ABA) Gun Violence White Paper** – Read the ABA’s *excellent* paper describing U.S. Supreme Court and lower courts decisions making it clear that the 2nd Amendment is consistent with and does not bar a broad array of laws to reduce gun violence.
 - www.americanbar.org/content/dam/aba/images/abanews/GunViolenceWhitePaper_020615.pdf (pdf file, ~20 min, 2,600 words)
- **Law Center to Prevent Gun Violence (LCPGV)** – LCPGV recommended this.
 - **Post-Heller Litigation Summary** (March 2015)
 - <http://smartgunlaws.org/post-heller-litigation-summary> (read from the web page or download the pdf file (~20 min, ~4200 word without references)
- **OPTIONAL- may be excellent to read or review sometime** (not included in the total continuing education hours)
 - **Interpreting the 2nd Amendment** - These seem unbiased, thoughtful descriptions covering how it was composed; individual, collective, and civic rights; and National Guard, self-defense, rational laws, 14th Amendment. Amendment, right of insurrection; plus Supreme Court decisions and trends. These were written by Heather Pfundt, MA, History
 - **Interpreting the Second Amendment, An Introduction**
 - www.lawsonline.com/LegalTopics/SecondAmendment/interpreting-the-second-amendment.shtm (~ 35 min, ~7,000 words w Endnotes)
 - **Judicial Interpretation of the Second Amendment**
 - www.lawsonline.com/LegalTopics/SecondAmendment/judicial-interpretation-second-amendment.shtm (~35 min, ~7,500 words without charts). Not including “Case and Summary” charts.

Read and study this material.

1.5 hours

Section 7: Implemented Strategies: President Executive Orders, Congressional Legislation, State Legislation

After studying the materials the participant will be able to:

- Determine the extent of available programs, interventions and policies (1.6.1)
- Assess efficacy of various strategies to ensure consistency with objectives (2.3.1)
- Select a variety of strategies and intervention to achieve stated objectives (2.3.3)
- Use a variety of resources and strategies for training (6.2.9)

Study Assignments

- Read the White House and President's actions and Progress Report much of the Congress' legislation in the Congressional Research Service report and self-select State actions. Spend about 30 minutes on each.

• President's (Obama) Executive Actions - White House

- Read/study the White House "NOW IS THE TIME" President's plan and the Progress Report on Executive Actions.
- NOW IS THE TIME
- <https://obamawhitehouse.archives.gov/issues/preventing-gun-violence> or https://obamawhitehouse.archives.gov/sites/default/files/docs/wh_now_is_the_time_actions.pdf (~25 min, 5,600 words)
- Progress Report on Executive Actions
- https://obamawhitehouse.archives.gov/sites/default/files/docs/exec_actions_progress_report_final.pdf (~15 , 4,000 words)

- **OPTIONAL** (not included in the hours for Section 7)

- Memorandum on Public Health Research
<https://obamawhitehouse.archives.gov/the-press-office/2013/01/16/presidential-memorandum-engaging-public-health-research-causes-and-preve>
- Fact Sheet: Strengthening Background Check System
<https://obamawhitehouse.archives.gov/the-press-office/2014/01/03/fact-sheet-strengthening-federal-background-check-system-keep-guns-out-p>
- Fact Sheet Executive Actions to Reduce Gun Violence
<https://obamawhitehouse.archives.gov/the-press-office/2016/01/04/fact-sheet-new-executive-actions-reduce-gun-violence-and-make-our>
- Memorandum –Tracing Firearms in Connection with Criminal Investigations
<https://obamawhitehouse.archives.gov/the-press-office/2013/01/16/presidential-memorandum-tracing-firearms-connection-criminal-investigati>
- Reality Check: Health Insurance Reform and Guns
<https://www.whitehouse.gov/blog/2009/11/23/reality-check-health-insurance-reform-not-a-guns-bill>

• Gun Control Legislation in the 113th Congress

- For about 30-minutes at least read the summary on page 2, the table of contents and scan the document to become familiar with each major heading in the table of contents. You will learn about laws that did pass, machine guns, trafficking, firearms transfer and possession. This 47 page document is a thorough review of legislative actions by Congress.
- **Gun Control Legislation in the 113th Congress (2015 Report)**
- <http://digital.library.unt.edu/ark:/67531/metadc501659/?q=gun%20control> or http://digital.library.unt.edu/ark:/67531/metadc501659/m1/1/high_res_d/R429

[87_2015Jan08.pdf](#) upload to HEP (**spend about 30 minutes reviewing the CRS report.** If you ever want to read the entire document it may take ~80 min, and is has about 19,000 words)

- **State Legislation**

- The Brady Campaign and Law Center for Gun Violence have studied and evaluated gun laws in all 50 states. Read/study information about your state or states for your interest. Be prepared to very briefly (=/<50 words) describe what you learned and how you might use the information to reduce gun violence (i.e., provide expert assistance, define gun violence as a health problem, develop strategies, advocate, use the public health approach.

- Brady Campaign

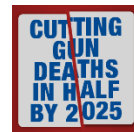

- Review the Brady Campaign home page. Read text on each of the other web pages. Learn how good your state is or other states of your interest are for criminals.

- <http://www.bradycampaign.org/>

- State Scorecard

- <http://www.bradycampaign.org/2013-state-scorecard>
- <http://crimadvisor.com/?page=scorecard>

- Crimadvisor – best and worst places to get guns if you're a criminal.

- <http://crimadvisor.com/>
- See the ad (1 min 44 sec) <https://youtu.be/v-OZOqxG39g>

- Law Center for Gun Violence Prevention

- <http://smartgunlaws.org/search-gun-law-by-state/>

The Supreme Court stated that the right to keep and bear arms is subject to regulation, such as concealed weapons prohibitions, limits on the rights of felons and the mentally ill, laws forbidding the carrying of weapons in certain locations, laws imposing conditions on commercial sales, and prohibitions on the carrying of dangerous and unusual weapons. It stated that this was not an exhaustive list of the regulatory measures that would be presumptively permissible under the Second Amendment. – Library of Congress (<http://www.loc.gov/law/help/second-amendment.php>).

Additionally, the Court declared that its analysis does not “suggest the invalidity of laws regulating the storage of firearms to prevent accidents.” District of Columbia ET AL v. Heller. No. 07-290. June 26, 2008 (<http://www.supremecourt.gov/opinions/07pdf/07-290.pdf>, pp 54-60).

~1.5 hours

Read and study all materials in this section.

Section 8: Public Health and Other Organization Recommended Strategies

After studying the materials the participant will be able to:

- Determine the extent of available programs, interventions and policies (1.6.1)
- Use assessment results to inform the planning process (2.2.1)
- Assess efficacy of various strategies to ensure consistency with objectives (2.3.1)
- Design theory-based strategies and interventions to achieve objectives (2.3.2)
- Select a variety of strategies and intervention to achieve stated objectives (2.3.3)
- Use a variety of resources and strategies for training (6.2.9)

Study Assignment

- Many of the organizations promoting gun violence prevention specifically mention that the public health approach should be used. Study/read the items related to the eight professional health organizations and American Bar Association, the public opinion chart, CRS, White House, Surgeon General Select 3 or 4 of the following to review/study.
- **Eight Professional Health Organizations and the American Bar Association (ABA)**
 - “Firearm-Related Injury and Death in the United States: A Call to Action From 8 Health Professional Organizations and the American Bar Association”
 - www.americanbar.org/content/dam/aba/images/abanews/FirearmInjuryCallToAction_022415.pdf or
 - <http://annals.org/article.aspx?articleid=2151828> (~15 min, 2,300 words)
 - Chart with recommended policies
 - www.healthedpartners.org/ceu/pgv/8phoandaba.pdf (~10 min)
- **Public Opinion** (from two studies immediately after and 2-years after Sandy Hook)
 - Chart comparing support for and estimates of effectiveness for policies
 - www.healthedpartners.org/ceu/pgv/publicopinionchart.pdf (~10 min)
- **The Community Guide – Violence Prevention: Firearms Laws – (14+ year old research and highlights the need for more research)**
 - Review the first to bulleted web pages. **Note: Insufficient Evidence from this 2001 systematic review.** “The available studies do not provide sufficient evidence to determine if the intervention is, or is not, effective. This does **NOT** mean that the intervention does not work. It means that additional research is needed to determine whether or not the intervention is effective.”
 - Summary of Findings
 - www.thecommunityguide.org/violence/firearms/index.html (~5 min, 1 page)
 - Firearms Laws (7 laws on bans, purchase restrictions, waiting periods, gun registration, owner licensing owners, child access, guns in schools, combinations)
 - www.thecommunityguide.org/violence/firearms/firearmlaws.html (~10 min, one long page)
 - Slides (OPTIONAL, good description of insufficient evidence, 92 slides)
 - www.thecommunityguide.org/about/CommGuideViolenceSlideSet.pdf
 - Supporting Materials (OPTIONAL)
 - www.thecommunityguide.org/violence/supportingmaterials/SETViolence-Firearms-RestrictingAcquisition.pdf

- **Healthy People 2020 – Interventions & Resources**
 - These pages list Evidence-Based Resources, Clinical Recommendations, and Consumer Information (~15 minutes reviewing the three web pages)
 - **Injury and Violence Prevention (IVP)**
 - IVP Interventions & Resources
 - www.healthypeople.gov/2020/topics-objectives/topic/injury-and-violence-prevention/ebrs
 - **Hearing and Other Sensory or Communication Disorders (ENT-VSL)**
 - ENT-VSL Interventions & Resources
 - www.healthypeople.gov/2020/topics-objectives/topic/hearing-and-other-sensory-or-communication-disorders/ebrs
 - **Mental Health and Mental Disorders (MHMD)**
 - MHMD Interventions and Resources
 - www.healthypeople.gov/2020/topics-objectives/topic/mental-health-and-mental-disorders/ebrs
- **Surgeon General**
 - Suicide
 - www.surgeongeneral.gov/library/reports/national-strategy-suicide-prevention/full-report.pdf (~15 min, ~2,000 words on specific pages listed below)
 - Review these items:
 - Objectives 6.1, 6.2, 6.3 are about reducing access to lethal means of suicide. p 43-45 data and restrict access to lethal methods
 - What You Can Do . . . p 49 -50. See Individuals and Families Can.; Members of the Armed Forces p 123 – 124
- **National Institute of Justice (NIJ) – CeaseFire: A Public Health Approach to Reduce Shootings and Killings**
 - <http://www.crimesolutions.gov/ProgramDetails.aspx?ID=207> or
 - <http://www.nij.gov/journals/264/pages/ceasefire.aspx> (~12 min, 2,000 words)

From the Meeting Minutes of University of Virginia Board of Visitors, 4–5 Oct. 1824

“At a meeting of the Visitors of the University, at the University on Monday 4th of October 1824. at which were present Thomas Jefferson, James Madison, James Breckenridge, John H. Cocke, George Loyall and Joseph C. Cabell.” Scroll about three quarters down the page:

<http://rotunda.upress.virginia.edu/founders/default.xqy?keys=FOEA-print-04-02-02-4598>

Section 9: Health Education Strategies

After studying the materials the participant will be able to:

- Determine the extent and quality of available health education programs, and potential partners to provide health education (1.6.1, 1.6.2, 1.6.3)
- Select a variety of strategies and intervention to achieve stated objectives (2.3.3)

Study Assignment

- Spend an hour reading/studying the education programs from five organizations. NOTE: there are “cons” shown for two NRA programs. Be prepared to write a very brief (</=50 words) description of what you learned that was significant to you and how you might use the information. (take ~60 minutes doing this).
- **Brady Campaign**
 - Review BRADY’S SOLUTIONS – seven education campaigns:
 - www.bradycampaign.org/our-impact/campaigns
 - **Keep Kids and Families Safe**
 - www.bradycampaign.org/our-impact/campaigns/keep-kids-and-families-safe

<p>~0.5 hour</p>	<p>Take test and answer evaluation questions in the Adobe Reader form</p> <p>Use Adobe Reader DC to open and take the test. It allows you to see your score as you answer questions. Click on the icon or the link below to get the free program.</p> <div data-bbox="756 331 1058 411" data-label="Image"> </div> <p>https://acrobat.adobe.com/us/en/products/pdf-reader.html</p> <p>Download and save the test from this link: www.healthedpartners.org/ceu/pgv/pgytest.pdf</p> <ol style="list-style-type: none"> 1. IMPORTANT – don't try to complete the test in your browser (e.g. Explorer, Chrome, Firefox, Safari) 2. Download or Save the test from your browser to your computer or a flash drive. Remember where it is. Save for your records and submission after completing test. 3. Start Adobe Reader DC <ol style="list-style-type: none"> a. NOTE for MAC users: you may need to switch from Mac's "Preview." To use Adobe Reader click the test pdf file icon, choose "File > Get Info" then click the triangle next to "Open with:" and choose Adobe Acrobat Reader. 4. Open the Adobe pdf test form with Adobe Reader DC NOTE: Be sure you are not using another pdf file viewing program (test answers may not be visible after saving, the total score may not calculate as you complete the test). 5. Take the test (scroll to page one of the last pages to see your score, correct answers if desired) 6. Save the test again to your computer or a flash drive. You reopen the test to verify you can see your answers and edit them if you wanted to edit them. 7. Attach the test form to an email to ce@healthedpartners.org
	<p>About the Course Developer</p> <p>Jim Grizzell, MBA, MA, MCHES, EP-C ACSM, FACHA</p> <p>Jim is a 55+ year and Life Member of the National Rifle Association. He became a Certified Health Education Specialist (CHES) in 1991 and Master CHES (MCHES) in 2011.</p> <p>Jim started target rifle shooting in the 1950s, won the Hearst Trophy for high ROTC cadet in the 1969 National Rifle Matches, was a collegiate All-American team twice while on the University of Wyoming varsity rifle team, and trained on the All Army Rifle Team. After the Army rifle team he commanded a unit in Germany that was to deliver nuclear warheads by helicopter to the artillery if we went to war. He left the Army as a Captain after 6 and a half years. He owns and safely stores two rifles – target air rifle and 22 caliber target rifle.</p> <div data-bbox="987 1293 1230 1491" data-label="Image"> </div> <div data-bbox="1263 1293 1409 1491" data-label="Image"> </div> <p>Gun law trends Jim has seen are that the NRA supported background checks until about the year 2000 (see 14 second CSPAN video of NRA's CEO Wayne LaPierre, https://youtu.be/M-ogfPojhec. The "gun control" advocates wanted to ban guns until about 2000. The NRA now opposes background checks and appears to be a gun industry organization attempting to sell more guns. The Brady Campaign and other gun violence prevention organization do not use the term "gun control" since safe use of guns by law-abiding citizens is legal.</p> <div data-bbox="1263 1516 1409 1730" data-label="Image"> </div>

Accreditation Information

Principles of Prevention WB 4137

PROGRAM DESCRIPTION:

Principles of Prevention is designed for individuals new to the field of violence prevention, and for those who work in fields that involve children and families, and may not know they have a role in preventing violence. This training will provide the foundational information they need to support a public health approach toward violence prevention.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Define violence and the burden to the United States
2. Describe the public health approach to violence prevention
3. Identify the four levels of the Social Ecological Model
4. Distinguish primary prevention from secondary and tertiary prevention
5. Describe my role, responsibilities, and scope of practice as a team member.

FACULTY / CREDENTIALS:

Sarah Roby, MPH, Health Education Specialist, Centers for Disease Control and Prevention

ORIGINATION DATE:

September 1, 2019

RENEWAL DATE:

August 31, 2021

EXPIRATION DATE:

August 31, 2023

URL:

<https://vetoviolence.cdc.gov/apps/principles-of-prevention>
